Winner Certificates

SulabhENVIS Resource Partner  
Patronised By Ministry of Environment, Forest & Climate Change  
Government of India

The following entries in poem competition were received:

The shelter of ozone layer 🌂  
is like mother's love in nature 🌳  
in this world full of betrayer 😈  
the family love is like a prayer 🙏  
which needs to be done forever 😊  
the strategy of the betrayer  
can't defeat the strongest player  
who can be called as our father 👤  
the slayer of devils is our mother 👤  
is like the shelter of ozone layer 🌂  
and family love is like a prayer 🙏  
needs to be done forever 🌈

## OZONE LAYER

A grim warning of the day,  
Its effects are becoming apparent day-by-day,  
Floods and drought every where,

Helplessly we stand and stare.

Ice caps melting, sea level rising

A deadly future, the earth, we are destroying,  
Ozone layer thinning day-by-day,

We can't continue the race this way

Carbon emission from every car,

We have to save the earth.

It is still not late to start.

Sorry, Mother earth.

Though you have given us life,

We are killing you with the global warming knife,

A few ways in which we can stop this destruction

Reuse, Recycle and Reduction,

Use non CFC fridge and air conditioners.

Run your car on LPG or CNG.

Save the earth, it's here we have to stay

or else for survival, we will have to pray.
